User test: AnnaBot

Name: _Arthur_____

Age: _~~100~~ 24_____

Gender: _M_____

Study: _BiT_____

Your task is to use the application to switch majors from "Kommunikasjonteknologi" to "Datateknologi".

In this scenario, you have studied 2 semesters of "Kommunikasjonsteknologi".

Please use the tools available in this program to make your custom studyplan for this switch, and please think "loudly", so we can observe your way of using our application.

If you were to ever switch majors, would you use an application like this to help you figure out what courses you had to take? Answer below:

No. There's far too much shadow work and removal of human interaction in society today.

Is there anything you would change (or features you would add) to the application? Answer below:

More info regarding how the suggestion is calculated might make more a more comfortable experience than receiving a list "blindly".
