User test: AnnaBot

Name: _Gøvling Gjemyg ue_

Age: _20_

Gender: _M_

Study: _MTDT_

Your task is to use the application to switch majors from "Kommunikasjonteknologi" to "Datateknologi".

In this scenario, you have studied 2 semesters of "Kommunikasjonsteknologi".

Please use the tools available in this program to make your custom studyplan for this switch, and please think "loudly", so we can observe your way of using our application.

If you were to ever switch majors, would you use an application like this to help you figure out what courses you had to take? Answer below:

Yup

Is there anything you would change (or features you would add) to the application? Answer below: Info
